

O P JINDAL UNIVERSITY OFFERS MASTER'S DEGREE PROGRAMME IN APPLIED PSYCHOLOGY

New Delhi [India], April 14: The Jindal School of Psychology and Counselling (JSPC) introduced a B.A. Honours degree in Psychology in August 2021.

This August, JSPC will inaugurate a new postgraduate programme—a Master's degree in Applied Psychology. The two programmes are designed to ensure students receive a robust interdisciplinary education in the psychological sciences by a diverse group of research-active faculty.

A rigorous but flexible curriculum, coupled with hands-on real-world training, guarantees students gain the requisite knowledge and skills to continue their education or enter the workforce.

The postgraduate degree will be offered in collaboration with our academic partner, the Jindal Institute of Behavioural Sciences (JIBS). Comprised of faculty members from premier institutions in India and abroad, the Institute is dedicated to understanding, developing, and applying human process competencies through continuous experimentation, research, and learning. JIBS works with top national and international researchers to address critical issues in human behaviour from a multidisciplinary perspective. JIBS also sponsors multiple research centres, including the Centre for Victimology and Psychological Studies, the Centre for Leadership and Change, the Centre for Community Mental Health, and the Centre for Criminology and Forensic Studies.

The two-year M.A./M.Sc. programme delivers a world-class educational experience in three disciplines: (i) Community Psychology; (ii) Forensic and Investigative Psychology; and (iii) Industrial and Organisational Psychology.

For each field, psychological principles, methods, and research findings are applied to real-world issues in government, business, private industry, society, and many other spheres of influence. In the first year, students gain proficiency in the psychological and allied behavioural sciences through carefully selected courses, followed by discipline-specific instruction in year two. Internships ensure students can employ their knowledge and skills beyond the classroom, enhancing their expertise and academic qualifications.

The Dean of JSPC, Prof. (Dr.) Derick H. Lindquist, says: “Undergraduate and graduate students will receive instruction in both theoretical and skill-based coursework covering the breadth of the psychological sciences. In-class learning is bolstered by practicums that allow student knowledge to be directly applied through psychological testing and other methodologies. Moreover, internships—completed each summer and winter break—permit students to interact with disparate psychological organizations and professionals. We are also excited to announce a new Psychology Research Laboratory that will provide direct involvement in psychological research and experimentation. The laboratory will enable researchers and students to measure brain activity, sensation, eye movement, physiological measures such as heart rate and blood pressure, and much more. All told, students can be confident they'll gain the knowledge, experience, and exposure to find a well-paying job or be highly competitive for admission into the top postgraduate programmes around the world.”

Prof. (Dr.) Sanjeev P. Sahni, Director of JIBS, states: “Blended with rigorous theoretical and practical aspects in consonance with the advances in the field, our M.A./M.Sc. Psychology curriculum lays an emphasis on inter-disciplinarity in understanding and applying psychology, by focusing not only on interactive classroom teaching but also on experiential learning and hands-on activities. We aim to take a creative research-based approach to this program in a bid to facilitate a smooth interface between the world of psychology professionals, academia, and the community.”

Together, the two Psychology programmes extend the academic specialisations offered by O.P. Jindal Global University (JGU), a non-profit global university recognized by the University Grants Commission of India. JGU has been designated an 'Institute of Eminence' (IoE) by the Indian Ministry of Education and is currently ranked as the number one private university in India according to the 2021 QS World University Rankings.

Prof. (Dr.) C. Raj Kumar, Vice Chancellor of JGU, states: “Since its launch in 2020, the Jindal School of Psychology & Counselling (JSPC) has taken forward the legacy of excellence and interdisciplinary studies—the two hallmarks of JGU. At the same time. It has shown the way forward in best contemporary practices in the field of psychology and allied sciences education. Teaching and learning at JSPC is characterised by a vibrant academic and research culture which seeks to leverage the university's internationally accomplished faculty members and innovative interdisciplinary curriculum. The B.A. programme offered by JSPC and the M.A./M.Sc. programme offered by JSPC and JIBS are truly unique and I strongly encourage students who are interested in the field of psychology to join us at JGU and experience a vibrant intellectual community and receive a comprehensive education in psychological theory, experimentation, and practice.”

NEW DEGREE IN APPLIED PSYCHOLOGY

HIGHLIGHTS

A new postgraduate programme - a Master's degree in Applied Psychology

The Jindal School of Psychology and Counselling (JSPC) introduced a B.A. Honours degree in Psychology in August 2021. This August, JSPC will inaugurate a new postgraduate programme - a Master's degree in Applied Psychology. The postgraduate degree will be offered in collaboration with our academic partner, the Jindal Institute of Behavioural Sciences (JIBS). Comprised of faculty members from premier institutions in India and abroad, the Institute is dedicated to understanding, developing, and applying human process competencies through continuous experimentation, research, and learning.

JIBS works with top national and international researchers to address critical issues in human behaviour from a multidisciplinary perspective. JIBS also sponsors multiple research centres, including the Centre for Victimology and Psychological Studies, the Centre for Leadership and Change, the Centre for Community Mental Health, and the Centre for Criminology and Forensic Studies.

The two-year M.A./M.Sc. programme delivers a world-class educational experience in three disciplines: (i) Community Psychology; (ii) Forensic and Investigative Psychology; and (iii) Industrial and Organisational Psychology. For each field, psychological principles, methods, and research findings are applied to real-world issues in government, business, private industry, society, and many other spheres of influence. In the first year, students gain proficiency in the psychological and allied behavioural sciences through carefully selected courses, followed by discipline-specific instruction in year two. Internships ensure students can employ their knowledge and skills beyond the classroom, enhancing their expertise and academic qualifications.

The Dean of JSPC, Prof (Dr) Derick H Lindquist, said, "Undergraduate and graduate students will receive instruction in both theoretical and skill-based coursework covering the breadth of the psychological sciences. In-class learning is bolstered by practicums that allow student knowledge to be directly applied through psychological testing and other methodologies. Moreover, internships - completed each summer and winter break - permit students to interact with disparate psychological organisations and professionals.

"We are also excited to announce a new Psychology Research Laboratory that will provide direct involvement in psychological research and experimentation. नया स्नातकोत्तर कार्यक्रम रू ओपी जिंदल ग्लोबल यूनिवर्सिटी एप्लाइड साइकोलॉजी में नई डिग्री प्रदान करेगा

हाईलाइट

ओपी जिंदल ग्लोबल यूनिवर्सिटी एप्लाइड साइकोलॉजी में नई डिग्री प्रदान करेगा

डिजिटल डेस्क, सोनीपत। जिंदल स्कूल ऑफ साइकोलॉजी एंड काउंसिलिंग (जेएसपीसी) ने अगस्त 2021 में मनोविज्ञान में बी.ए. ऑनर्स डिग्री का शुभारंभ किया था। इस अगस्त में, जेएसपीसी एक नए स्नातकोत्तर कार्यक्रम – एप्लाइड साइकोलॉजी में मास्टर डिग्री शुरू करने जा रहा है।

दो कार्यक्रमों को यह सुनिश्चित करने के लिए डिजाइन किया गया है कि छात्रों को अनुसंधान-सक्रिय संकाय के विविध समूह द्वारा मनोवैज्ञानिक विज्ञान में एक मजबूत अंतरविषय शिक्षा प्राप्त हो। एक कठोर लेकिन लचीला पाठ्यक्रम, वास्तविक दुनिया के प्रशिक्षण के साथ मिलकर, छात्रों को अपनी शिक्षा जारी रखने या कार्यबल में प्रवेश करने के लिए आवश्यक ज्ञान और कौशल प्राप्त करने की गारंटी देता है।

स्नातकोत्तर डिग्री हमारे अकादमिक साथी, जिंदल इंस्टीट्यूट ऑफ बिहेवियरल साइंसेज (जेआईबीसी) के सहयोग से प्रदान की जाएगी। भारत और विदेशों में प्रमुख संस्थानों के संकाय सदस्यों से मिलकर, संस्थान निरंतर प्रयोग, अनुसंधान और सीखने के माध्यम से मानव प्रक्रिया दक्षताओं को समझने, विकसित करने और लागू करने के लिए समर्पित है।

जेआईबीसी एक बहु-विषयक द्रिष्टिकोण से मानव व्यवहार में महत्वपूर्ण मुद्दों को संबोधित करने के लिए शीर्ष राष्ट्रीय और अंतरराष्ट्रीय शोधकर्ताओं के साथ काम करता है। जेआईबीसी कई शोध केंद्रों को भी प्रायोजित करता है, जिसमें सेंटर फॉर विटिमोलॉजी एंड साइकोलॉजिकल स्टडीज, सेंटर फॉर लीडरशिप एंड चेंज, सेंटर फॉर कम्प्युनिटी मेंटल हेल्थ और सेंटर फॉर क्रिमिनोलॉजी एंड फोरेंसिक स्टडीज शामिल हैं।

दो वर्षीय एम.ए./एम.एससी. कार्यक्रम तीन विषयों में एक विश्व स्तरीय शैक्षिक अनुभव प्रदान करता है — (1) सामुदायिक मनोविज्ञान; (2) फोरेंसिक और खोजी मनोविज्ञान; और (3) औद्योगिक और संगठनात्मक मनोविज्ञान। प्रत्येक क्षेत्र के लिए, सरकार, व्यवसाय, निजी उद्योग, समाज और प्रभाव के कई अन्य क्षेत्रों में वास्तविक दुनिया के मुद्दों पर मनोवैज्ञानिक सिद्धांतों, विधियों और शोध निष्कर्षों को लागू किया जाता है।

पहले वर्ष में, छात्र ध्यान से चयनित पाठ्यक्रमों के माध्यम से मनोवैज्ञानिक और संबद्ध व्यवहार विज्ञान में दक्षता हासिल करते हैं। इंटरशिप यह सुनिश्चित करती है कि छात्र अपने ज्ञान और कौशल को कक्षा से परे नियोजित कर सकें, जिससे उनकी विशेषज्ञता और शैक्षणिक योग्यता में वृद्धि हो सके।

जेएसपीसी के डीन, प्रो. (डॉ.) डेरिक एच. लिंडक्विस्ट कहते हैं, अंडरग्रेजुएट और ग्रेजुएट छात्रों को मनोवैज्ञानिक विज्ञान की दूरी को कवर करते हुए सैद्धांतिक और कौशल-आधारित दोनों तरह के शोध में निर्देश प्राप्त होंगे। इन-क्लास लर्निंग को अभ्यास द्वारा आगे बढ़ाया जाता है, जो छात्रों के ज्ञान को मनोवैज्ञानिक परीक्षण और अन्य पद्धतियों के माध्यम से सीधे लागू करने की अनुमति देता है। इसके अलावा, इंटरशिप छात्रों को अलग-अलग मनोवैज्ञानिक संगठनों और पेशेवरों के साथ बातचीत करने की अनुमति देता है।

उन्होंने कहा, हम एक नई मनोविज्ञान अनुसंधान प्रयोगशाला की घोषणा करने के लिए भी उत्साहित हैं जो मनोवैज्ञानिक अनुसंधान और प्रयोग में प्रत्यक्ष भागीदारी प्रदान करेगी। प्रयोगशाला शोधकर्ताओं और छात्रों को मस्तिष्क गतिविधि, आंखों की गति, हृदय गति और रक्तचाप जैसे शारीरिक उपायों को मापने में सक्षम करेगी। छात्रों को विश्वास हो सकता है कि वे अच्छी तरह से भुगतान वाली नौकरी खोजने के लिए ज्ञान, अनुभव और जोखिम प्राप्त करेंगे या दुनिया भर के शीर्ष स्नातकोत्तर कार्यक्रमों में प्रवेश के लिए अत्यधिक प्रतिस्पर्धी होंगे।

जेआईबीएस के निदेशक प्रो. (डॉ.) संजीव पी. साहनी कहते हैं रू क्षेत्र में प्रगति के अनुरूप कठोर सैद्धांतिक और व्यावहारिक पहलुओं के साथ मिश्रित, हमारा एमए/एमएससी मनोविज्ञान पाठ्यक्रम अंतर-अनुशासन पर जोर देता है। मनोविज्ञान को समझने और लागू करने में, न केवल इंटरैक्टिव कक्षा शिक्षण पर बल्कि अनुभववात्मक शिक्षा और व्यावहारिक गतिविधियों पर भी ध्यान केंद्रित करने पर भी जोर देता है। हमारा उद्देश्य इस कार्यक्रम के लिए एक रचनात्मक अनुसंधान-आधारित दृष्टिकोण अपनाना है ताकि दुनिया के बीच एक सहज इंटरफेस की सुविधा मिल सके।

साथ में, दो मनोविज्ञान कार्यक्रम ओपी जिंदल ग्लोबल यूनिवर्सिटी (जेजीयू) द्वारा प्रदान की जाने वाली अकादमिक विशेषज्ञता का विस्तार करते हैं, जो भारत के विश्वविद्यालय अनुदान आयोग द्वारा मान्यता प्राप्त एक गैर-लाभकारी वैश्विक विश्वविद्यालय है।

प्रो. (डॉ.) सी. राज कुमार, जेजीयू के कुलपति, कहते हैं रू 2020 में अपनी शुरुआत के बाद से, जिंदल स्कूल ऑफ साइकोलॉजी एंड काउंसिलिंग (जेएसपीसी) ने उत्कृष्टता और अंतरविषय अध्ययन की विरासत को आगे बढ़ाया है। साथ ही इसने मनोविज्ञान और संबद्ध विज्ञान शिक्षा के क्षेत्र में सर्वोत्तम समकालीन प्रथाओं में आगे का रास्ता दिखाया है। जेएसपीसी में शिक्षण एक जीवंत शैक्षणिक और अनुसंधान संस्कृति की विशेषता है जो विश्वविद्यालय के अंतरराष्ट्रीय स्तर पर निपुण संकाय का लाभ उठाने का प्रयास करता है।

उन्होंने कहा, जेएसपीसी द्वारा पेश किया जाने वाला बीए प्रोग्राम और जेएसपीसी और जेआईबीएस द्वारा पेश किया जाने वाला एमए/एमएससी प्रोग्राम सही मायने में अद्वितीय है और मैं मनोविज्ञान के क्षेत्र में रुचि रखने वाले छात्रों को जेजीयू में शामिल होने और एक जीवंत बौद्धिक समुदाय का अनुभव करने और मनोवैज्ञानिक सिद्धांत, प्रयोग और अभ्यास में व्यापक शिक्षा प्राप्त करने के लिए दृढ़ता से प्रोत्साहित करता हूँ।

O P JINDAL UNIVERSITY OFFERS MASTER'S DEGREE PROGRAMME IN APPLIED PSYCHOLOGY

The two-year MA or MSc programme will be offered in three disciplines including community psychology, forensic and investigative psychology, and industrial and organisational psychology.

Written by FE Online

The Jindal School of Psychology and Counselling (JSPC) has introduced a master's degree programme in Applied Psychology. The postgraduate degree will be offered in collaboration with the Jindal Institute of Behavioural Sciences (JIBS).

The two-year MA or MSc programme will be offered in three disciplines including community psychology, forensic and investigative psychology, and industrial and organisational psychology.

According to the university, in the first year, students gain proficiency in the psychological and allied behavioural sciences, followed by discipline-specific instruction in the second year. Students are also offered internship opportunities, JSPC said.

“Undergraduate and graduate students will receive instruction in both theoretical and skill-based coursework covering the breadth of the psychological sciences. In-class learning is bolstered by practicums that allow student knowledge to be directly applied through psychological testing and other methodologies,” Derrick H Lindquist, dean of JSPC said.
