

## Bid to improve teaching practices

CITY BUREAU

Hyderabad

The Jindal Institute of Behavioural Sciences (JIBS), a research institute affiliated to OP Jindal Global University, organised an awareness programme on identifying best teaching practices for teachers in school.

The programme was organised to empower the teacher with techniques and tools to enhance and encourage active involvement of the teachers and students in the learning process, said Sanjeev P Sahni, principal, JIBS.

"The skill enhancement programme on 'Identifying Best Teaching Practices in School Education for School Leaders' offers value addition to the school education system," he said.
